PROJECTS

Landing Page(Informative)

html, css

January 2025

- This HTML and CSS landing page offers a concise overview of Eminem's music career, highlighting key milestones and achievements.
- It features a clean, responsive design to ensure optimal viewing across devices. The page includes sections such as a brief biography, discography highlights.

SparknTech (Ecommerce Website project)

html, css, bootstrap

November 2024

- SparknTech is a dynamic e-commerce platform offering a curated selection of dresses, jewelry, and electronic gadgets.
- Developed using HTML for structure, CSS for styling, and JavaScript for interactivity, the website ensures a seamless and engaging shopping experience.
- Key features include intuitive navigation and a responsive design for optimal viewing on any device.

Web Calculator Application

html, css, javascript

January 2025

- It performs basic arithmetic operations such as addition, subtraction, multiplication, and division.
- The application features a user-friendly interface with a responsive design, ensuring compatibility across various devices.
- JavaScript handles the calculator's functionality, enabling real-time computation and display of results.
- This project serves as a practical demonstration of integrating HTML for structure, CSS for styling, and JavaScript for interactivity in web development.

Personal Portfolio Website

html, css, javascript

January 2025

- This project is a personal portfolio website developed using HTML, CSS, and JavaScript.
- The website features an 'About Me' section that provides a brief introduction and background information, a 'Projects' section showcasing selected works with descriptions and visuals, and a 'Contact' section offering various ways to get in touch.
- The design emphasizes clarity and ease of navigation, ensuring visitors can quickly access and understand the showcased content.
